NUMBER BEARS

Math Center

0-11 Number
Order
Digit & number
word Match
Numbers before
and after

By Yara Habanbou at the Sea of Knowledge

Instructions

This center can be used to reinforce learning the numbers between 0-11 and is suitable for students in pre-k, K and grade 1. This center can be used to supplement your math stations throughout the year if you find that students need more number reinforcement. More numbers will be added to this unit as time progresses.

Here are several methods in which they can be used:

Game 1: print, laminate and cut out the number cards and give a set to each group. Allow them time to order these numbers, then hand out the recording sheet 1 and allow students to record their responses.

Game 2: Hand out the word number cards and instruct students to match these with the number cards. Recording sheet included.

Game 3: combine both sets of cards in one deck. Allow the deck to go around the group while each student takes out one card randomly. They then record the 2 numbers that go after the number chosen. Round 2: the deck goes around the group once again and this time students record the number that comes before the number chosen.

Beary order!

I can order my numbers! Order the numbers 0-11 in order from the least to the largest number.
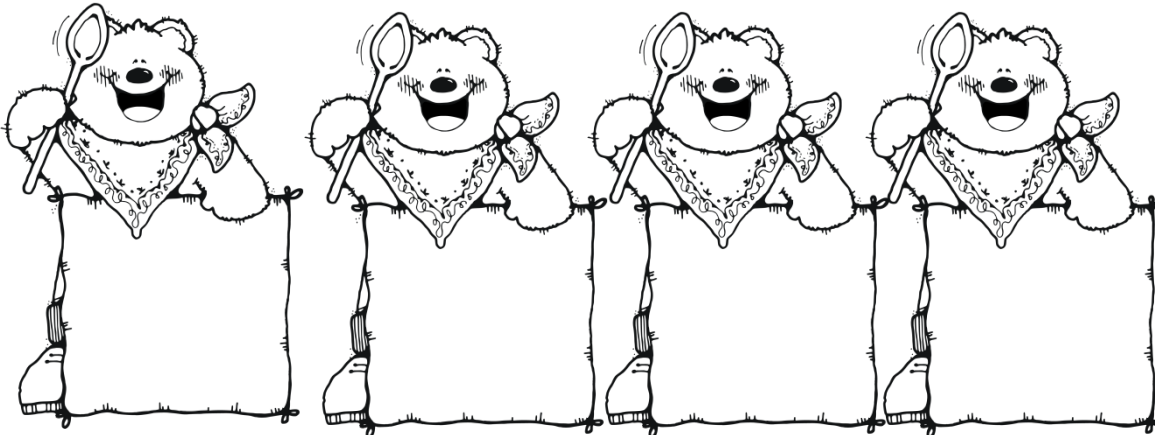

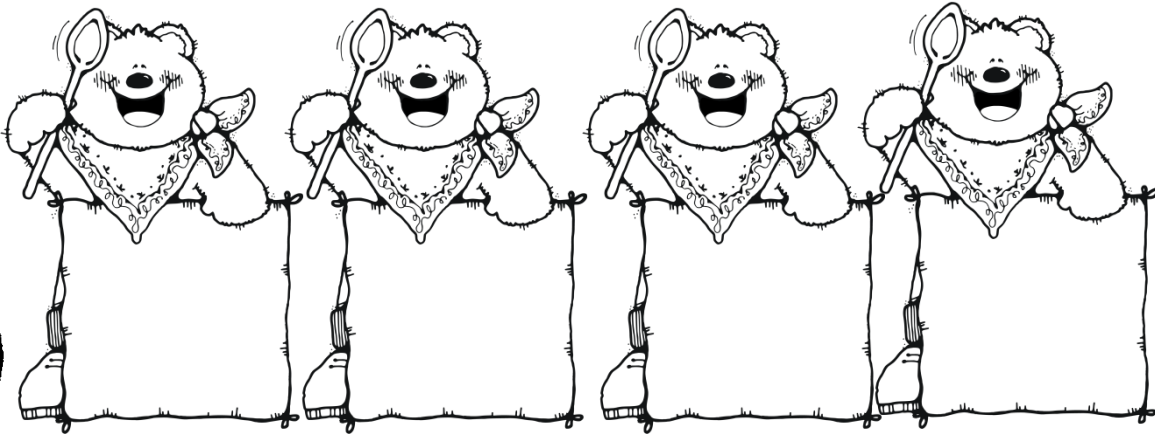

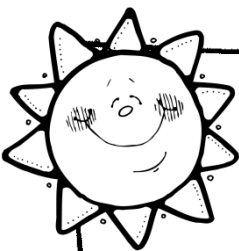

Name: _____

Beary order!

I can order my numbers! Order the numbers 12-23l in order from the least to the largest number.
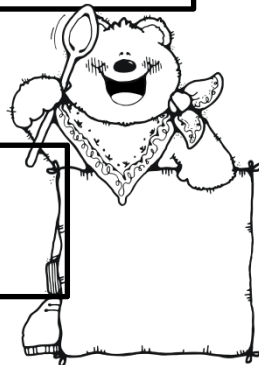

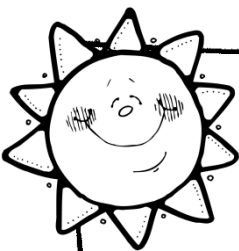

Name: _____

Matching Bears!

I can order match my numbers! Write the number word underneath the number digits you found!
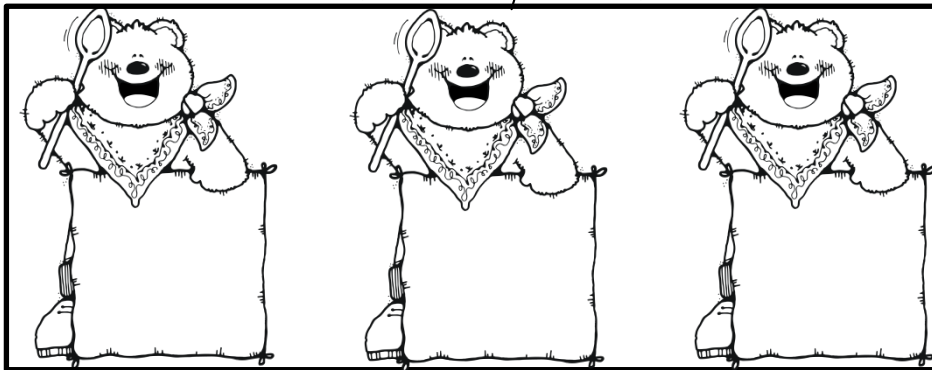

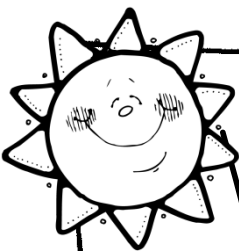

Name: _____

What comes after?

Draw 3 number cards from the deck of cards and write down two numbers that come after the number card you drew.
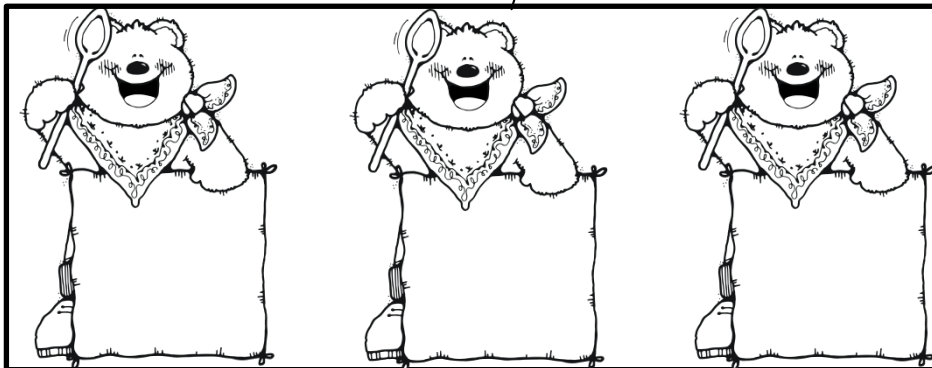

What comes before?

Draw 3 number cards from the deck of cards and write down two numbers that come before the number card you drew.

Hello!

I just wanted to take a moment and <u>thank you</u> for your purchase. I greatly appreciate your business and hope that this unit was useful for you!

Your satisfaction is the greatest recognition I can get and I would love it if you'd provide feedback to let me know this! ☺
