$8 \times ? = 40$

$9 \times ? = 18$

$8 \times ? = 64$

$9 \times ? = 27$

$? \times 6 = 36$

$8 \times ? = 8$

$? \times 7 = 63$

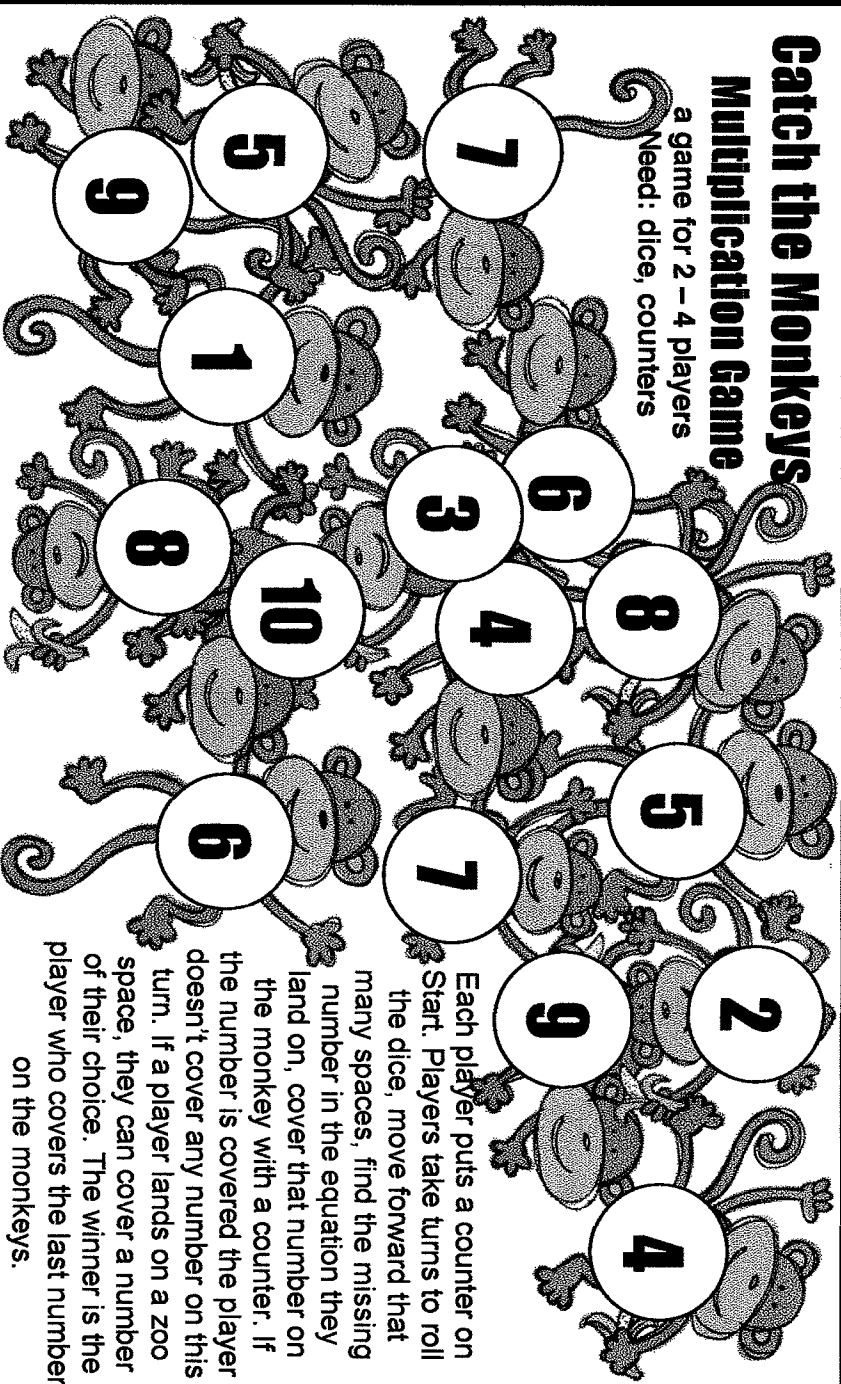

$? \times 8 = 56$

Catch the Monkeys

Multiplication Game

a game for 2 – 4 players
Need: dice, counters

Each player puts a counter on Start. Players take turns to roll the dice, move forward that many spaces, find the missing number in the equation they land on, cover that number on the monkey with a counter. If the number is covered the player doesn't cover any number on this turn. If a player lands on a zoo space, they can cover a number of their choice. The winner is the player who covers the last number on the monkeys.

$6 \times ? = 24$

$3 \times ? = 30$

$? \times 7 = 21$

$? \times 4 = 28$

$9 \times ? = 36$

$? \times 5 = 40$

$? \times 4 = 36$

$8 \times ? = 32$

$5 \times ? = 25$

$7 \times ? = 14$

$5 \times ? = 30$

$3 \times ? = 24$

$? \times 5 = 50$

$5 \times ? = 35$

$9 \times ? = 81$

$9 \times ? = 9$

$8 \times ? = 48$

$9 \times ? = 45$
